

WXG-4
MANUAL POLARIMETER

DESCRIPTION

Classic device used to measure optical rotation of optically active matter such as essential oils, steroids, vitamins, amino acids, etc. Ideal instrument for analysis of sensitive samples and nondestructive testing in institutes, universities, chemical and food industries.

TECHNICAL PARAMETERS	
RANGE	OPTICAL WAVELENGTH
-180° to +180°	589 nm
SCALE VALUE	SAMPLE TUBE LENGTH
1°	100 or 200 mm
VERNIER	DIMENSIONS
0.05°	135 x 500 x 330 mm
MAGNIFIER	WEIGHT
3X	5 kg
LIGHT SOURCE	POWER SUPPLY
LED lamp	AC 110V, 60Hz

KEY FEATURES

- Simple operation, easy-to-use.
- Classic design, short warm-up time.
- Magnifier and vernier double provide easy readings.

STANDARD ACCESSORIES

- Test tube 100mm
- Test tube 200mm
