

SM-PA
DIGITAL MAGNETIC STIRRER

DESCRIPTION

Ideal equipment for stirring or mixing liquid media. Compact and lightweight design with excellent speed control that ensures constant speed and optimal results. Widely used in molecular biology, biotechnology, microbiology and quality control laboratories, pharmaceutical and food industries, universities, etc.

TECHNICAL PARAMETERS

MAXIMUM STIRRING QUANTITY (H₂O)	MAXIMUM LENGTH OF MAGNETIC STIR BAR
3 L	50 mm
SPEED RANGE	PROTECTION CLASS
200 to 1500 rpm	IP42
STIRRING POSITIONS	WORK PLATE DIMENSIONS
1	Φ135 mm
OPERATION MODE	DIMENSIONS
Continuous	150 x 260 x 80 mm
MOTOR INPUT POWER	WEIGHT
5 W	3.5 kg
MOTOR OUTPUT POWER	POWER
3 W	60 W
MOTOR TYPE	POWER SUPPLY
Brushless DC motor	100-120V, 60 Hz
DISPLAY	
LED	

KEY FEATURES

- Practical and accurate equipment with digital speed control.
- Strong magnetic coupling.
- LED display shows speed.
- Adjusting knob to simplify speed setting.
- Maintenance-free brushless DC motor.

STANDARD ACCESSORIES

- Magnetic stir bar
